CareGard

## Live Independently Without Feeling Alone

## Live Independently Without Feeling Alone

*Whether you're concerned about your own safety or the well-being of a loved one, you can relax because your personal CareGard is always on duty. All it takes is the push of a button and an emergency response operator is on the line, ready to summon whatever help you need.*

*CareGard is on call 24 hours a day, 365 days a year. You continue enjoying a rich, independent lifestyle. Yet you're never alone because CareGard is a constant presence, always looking out for you.*

## Special Features And Benefits

- Easy installation—no tools required.
- Works with existing phone lines and a standard wall outlet.
- Dependable Call Button with up to 150-foot range.
- Built-in rechargeable back-up power with low battery alarm.
- Peace of mind 24 hours a day, 365 days a year. For more information, call:

## The Home Emergency Call System

Just push the button and CareGard springs into action:

- Automatically dials help in an emergency.
- Two-way conversation. You can communicate vital information, talking and hearing back through the two-way speakerphone capability of the CareGard panel.
- Immediate response. In seconds you will be connected with someone who can help.

## CareGard Is Ideal For

- Seniors who live alone or are alone at times.
- People with medical conditions.
- People with difficulty walking in danger of falling.
- Anyone who might need help in an emergency.

CareGard offers everything you need for safer, independent living with peace of mind for you and your family.

*Wear your personal Call Button on your wrist, around your neck or clipped to your clothing. Or mount it on the wall in a convenient location.*

# CareGard Is Always With You

Your personal Call Button can be worn in a variety of ways to suit your lifestyle. It's waterproof so you can even wear it in the bath or shower. If you fall... have a medical emergency...hear an intruder...or have a fire, the Call Button is always within easy reach. And help is on the way.

Just press a button and a wireless message goes out to the CareGard panel. Within seconds, an operator responds to your needs.

## The Easy Answer

Rushing to answer the phone can be dangerous if you have health or mobility issues. CareGard lets you answer the phone from anywhere by simply pressing your Call Button. Talk immediately through the hands-free speakerphone, then take your time getting to the telephone.

CareGard Contains: 1- CareGard Panel, 1- Personal Call Button and 1- User Manual

## Simple 3-Step Installation

1 Plug in power cord    2 Plug in phone cord    3 Call for programming assistance

## How It Works

Press The Call Button And GE CareGard Dials For Help

Help Center assistance is available when family members can't be – 24 hours a day, 365 days a year

- 1 Press the personal Call Button, and CareGard automatically dials the Help Center.
- 2 A trained Help Advisor answers and talks with you over CareGard's built-in speakerphone.
- 3 The Help Advisor calls for emergency assistance and phones family members, friends or neighbors.
- 4 Your Help Advisor stays on the line with you until help arrives.

If you fall... feel ill... have a medical emergency... hear an intruder... have a fire... simply push the button and help is on the line.

\*Monitoring service activation required.

## Expand Your Safety Net

For even greater protection, you can add special features like medication reminders, smoke detectors and carbon monoxide sensors. There are activity sensors that send a call for help if you're not moving around as much as usual. You can even add freeze and flood sensors to protect your home when you're away.

Medication Reminders    CO Detector    Smoke Detector    Motion Detector
